Metal space guard

Plastic space guard

Space guards assist in reducing the space from the hoistway door to the landing sill and the space between the car gate/door and the hoistway door.

Plastic Space Guard: Light weight, plastic, ambidextrous and easy to install, this space guard is designed to be installed on 36” or 32” wide residential elevator hoistway doors and fill a $3\frac{1}{8}$ ” space. It comes standard in White.

Metal Space Guard: Metal, ambidextrous and easy to install, this space guard is designed to be installed on 36” or 32” wide residential elevator hoistway doors and fill a $1\frac{3}{4}$ ” to $5\frac{1}{4}$ ” space. It comes standard in Architectural White.
